# Net-O2 signs up customers for its ATTEST Test Suites

## Description

*Chennai, November 10, 2003* -- Net-O2 Technologies Announced That It Has Signed Up Three Customers For Its Attest Test Suites. Test Suites Licensed Include Mstp, Vlan, 802.1X And Pim.

This Has Been A Indication Of The Significant Value Net-O2 Attest Test Suites Offer To Its Customers Over Its Competitors Said N. Muthukumaran, Ceo Net-O2 Technologies. Net-O2 Attest Test Suites Are Found To Be Extremely Useful For Both Developers And Testers Since The Attest Framework Provides Powerful Testing And Debugging Capabilities, Apart From Its Unique One Touch Automation.

"In The Wake Of The Economic Down Turn, Companies Are Facing Increasing Pressure To Reduce The Cost Of Testing By Extracting Greater Efficiencies From Their Investments In Testing. Net-O2 Attest Is A Fully Automated Product That Delivers Excellent Value In Terms Of Reduced Cost Of Testing, Time-To-Market And With Higher Productivity" Said David Charlu, Cto, Net-O2 Technologies.
Net-O2 Attest Is A Next Generation, Feature Rich, Automated Product That Provides Comprehensive Test Suites To Address The Conformance Testing Requirements Of Equipment Manufacturers And Service Providers For A Wide Range Of Protocols Including Ip Multicast, Layer 2 Switch Protocols And Ipv6.
