

Net-O2 Technologies is selected by Technology Development Board

Description

Chennai, May 02, 2008 -- Net-O2 Technologies Has Been Selected By The Technology Development Board (Tdb) For Partly Funding Its Attest Switchtester Product Development. Tdb, A Wing Of The Department Of Science And Technology, A Government Of India Body, Is Expressly Chartered To Select, Recognize And Support Leading Edge Innovations In Indigenous Science And Technology.

"The Technology Development Board Of India Has Chosen Net-O2 Technologies After Rigorous Evaluation By An Eminent Panel Of Technologists Gathered From Across India. We Are Glad To Receive This Prestigious Endorsement Of Net-O2'S R&D Capabilities In Providing Innovative And Path-Breaking Solutions In The Global Test And Measurement Market", Said David Charlu, Ceo Net-O2 Technologies.

"Our Confidence In The Success Of Attest Switchtester Product Family Stems From The Enthusiastic Reception We Have Had From The Global Testing Community Building On The Success Net-O2 Has Demonstrated In Providing Attest Solutions To More Than 50 Customers Worldwide."
