Samtest Has Been Highly Appreciated By Customers For Saving Cost And Time.

Customer Satisfaction

“I Upgraded Junos On Several Juniper Switches. I Want To Know That Changes To Cos, Protocol Tunneling, Etc. Are Not Affecting My Customer Services. Veryx Samtest Was Able To Tell Me If It Sees Any Issues And Gives Clear Error Messages To What The Issue Is. .. One Of The Most Comprehensive And Simplest Pieces Of Software That I Have Used In A Long Time. Very Simple And Intuitive.”

— Wayne Johnston, Axia, Canada

“Samtest’s Built-In Automation Reduces The Time It Takes To Provision And Turn-Up Our Services, Greatly Improves Integra’s Customers’ Experience. The Inclusion Of This Application In Our Process Further Advances Our Leading Position In Carrier Ethernet Services.”

—Michael Sharpe, COO, Integra

“Samtest Is A Highly Reliable Ce 2.0 Testing Solution That Has Accelerated Validation Of New Ethernet Services For Time Warner Cable. Manual Testing Efforts Have Been Significantly Reduced With Samtest Automation, And The Errors Associated With Having Engineers Execute Detailed And Repetitive Test Cases Have Been Eliminated. In Addition, The Samtest User Interface Simplifies And Speeds Up Testing Compared To Other Tools We Have Used In The Past.”

—Lance Hassan, Director of Network Services and Automation, Time Warner Cable
