

Veryx Announces Mobile App and Additional Integrations In Cloudmon

Description

Chennai—Veryx Technologies (www.veryxtech.com) Announced Support For New Features That Enable It Teams To Benefit From Cloudmon's Monitoring Dashboard On The Go, Through Cloudmon App For It Monitoring.

According To Selvaraj Balasubramanian, Chief Technology Officer, “With Cloudmon Mobile App We Have Taken The Customer Experience To A Higher Level With Features Like Real-Time Problem Alerts, Triage And Dashboard Summary, In Addition To Other Features For Alerts Via Ms Teams, Slack, Sms And Mail. Cloudmon Also Integrates With Ticketing Software Such As Zohodesk.”

Veryx Cloudmon Provides Unified, End-To-End Observability For Digital Businesses. It Supports Digital Experience Monitoring (Dem), It Infrastructure Monitoring (Itim) And Network Traffic Monitoring (Ntm) In A Single Platform. A Key Differentiator In Cloudmon Is Visibility – That It Teams Can See Beyond What They Can With Most Other Tools, And The Ability To Pro-Actively Determine Potential Issues.
