

# Veryx selected to Intel® Network Builders Winners' Circle

## Description

Veryx Technologies Is Recognized As A Member Of The Solution Partner Category In The Intel® Network Builders Annual Winners' Circle Awards, A Program That Celebrates Outstanding Innovation And Business Acumen That Members Of The Ecosystem Are Bringing To The Networking Industry.

“For The Intel Network Builders Program, It’s Important To Recognize The Partners Who Are Most Closely Aligned With Our Mission Of Driving Digital Transformation And Innovation In The Network. We Created The Winners' Circle Awards To Highlight The Achievements Of Our Partners Who Are Delivering Technical Leadership, Advancing Open Source Standards, And Collaborating With End Users To Accelerate Their Network Transformation.” Said Keate Despain, Intel Network Builders Program Director. “Ecosystem Partners Are Recognized For Commercial Delivery Of Virtualized Or Cloud-Ready Applications Based On Intel® Architecture, Edge Applications, Or 5G Integrated Solutions With Commercial Products.”

Veryx Probes Based On Intel X86 Platforms Are Integrated Into Its Products For Visibility, Testing And Diagnostics In Legacy Ip Networks As Well As In 5G And Edge Computing Networks That Leverage Nfv And Sdn Capabilities. They Could Be Used For Benchmarking Of A Virtualized Network (Private And Public Cloud Environments) And Verification Of Production Networks. They Also Support Active And Passive Performance Monitoring.

## About Veryx Technologies

Founded In 2002, Veryx Technologies ([www.veryxtech.com](http://www.veryxtech.com)) Is A Provider Of Innovative Visibility, Security And Testing Solutions For Enterprises, Cloud Service Providers, Network Service Providers, And Network Equipment Vendors. Veryx Products And Solutions Have Been Well Recognized In The Industry With Numerous Customer Successes And Awards.

## About Intel Network Builders

Intel Network Builders Is An Ecosystem Of Independent Software Vendors (Isvs), Operating System Vendors (Osvs), Original Equipment Manufacturers (Oems), Telecom Equipment Manufacturers (Tems), System Integrators (Sis), Enterprises, And Service Providers Coming Together To Accelerate The Adoption Of Network Functions Virtualization (Nfv)-Based And Software-Defined Networking (Sdn)-

Based Solutions In Telecom Networks And In Public, Private, And Hybrid Clouds. The Intel Network Builders Program Connects Service Providers And Enterprises With The Infrastructure, Software, And Technology Vendors That Are Driving New Solutions To The Market.
