

Veryx Technologies achieves ISO 27001 Certification

Description

Veryx Technologies Announced That It Has Successfully Completed Iso 27001 Certification For Its Information Security Management System (ISMS).

Iso 27001 Is An International Compliance Framework Set By The International Organization For Standardization (Iso), The World's Largest Developer Of Voluntary International Standards, And The International Electrotechnical Commission (Iec). As The Most Widely Recognized Iso/Iec 27000 Compliance Standard, Iso 27001 Certification Demonstrates Organizational Excellence In Overall Security Of All Assets In Veryx ISMS.

"We Are Pleased To Receive The Iso 27001 Certification As A Confirmation That Security Management Program At Veryx Is Comprehensive And Follows Industry Leading Practices. The Certification Demonstrates Our Continued Effort Towards Information Security At Every Level And Ensure That Data Security Is Top Of Mind In All Areas Of The Organization" Says Jayavardhan Suram, Chief Operating Officer At Veryx Technologies.

To Achieve The Certification, The Company's Organizational Processes Were Assessed In Multiple Areas Including It, Hr, Engineering And Administration. Certification Of Iso 27001 Puts A Priority On Data Protection Through Implemented Controls Including Security-By-Design Product Development, Data Encryption, Vulnerability Management, Business Continuity, Disaster Recovery Plans Etc.
